Calgary, Oct. 21st, 1935

Dear Sirs,—For some time I have been very much troubled with rheumatism in my feet and knees. The rheumatism I consider inflammatory in its nature, at least the doctor told me so. I have also been very much troubled with neuralgia, and have used several remedies but of no avail. At last my

daughter wrote me from Ontario to try Templeton's "Pink Powders." They gave me rapid and sure relief. I recommend Pink Powders whenever I hear of any one being troubled with rheumatism or neuralgia. Three boxes cured me.

Yours truly,  
MARIA OREIGH.

BELLEVILLE, TUESDAY FEB. 6

CITY AND DISTRICT.

A branch of the P.P.A. has been formed

in Belleville.

To-day is Shrove Tuesday, a day dear to

the lovers of pancakes.

A small market this morning in produce,

but wood was in abundance.

The County Grand Lodge will meet to-  
morrow for the election of officers.

Two speech made at the police court

yesterday night at 8:30 p.m.

[Don't forget the concert by St. Michael's

GUILD, in the basement of the church at

night.]

Go to Grant's cheap suit sale for coats

and shoes. New goods at cost for sixty

days only.

It was 1/2 below zero in Brandon, Man.,

a few days ago. So wrote D. O. Roblin,

Mr. Corby's traveler.

The special committee on the reduction

of waste will probably meet on Thursday

night, when other city committee meet.

Through the kindness of the U. S. Consul

Mr. Hendricks, the Institute and Library

is now supplied with a number of New York

papers.

His Worship the Mayor and Ald. Collins

and Lombard, visited the bench at the

police court this morning. The Magistrate

said: "You are both good men."

You can get boys and girls' school

books for 75c. formerly 80c. at the

bookstore at 405, former place 70c. at

Grant's cheap suit sale.

The books of the eighth Division Court

for the County of Hastings have been

brought into the first Division Court at

Belleville and abandoned.

Several parties in the city acknowledge

the receipt of Register papers from Mr.

Roe. Those who are now in the city

equipped with the same.

Miss Booth, Graduate of Boston College,

visiting at the residence of the Hon. J. H.

Manning, will spend this week at the

residence of the Hon. J. H. Manning.

A meeting of the Y.M.C.A. Association

will be held in the Y.M.C.A. law office

this evening at 7:30. A full attendance

is requested, as there is business of importance

to transact.

It was erroneously stated in yesterday's

issue that Miss Lyle, who has been engaged

as book-keeper by Messrs. &amp; Benson, is a

graduate of the Belleville Business College,

instead of Ontario Business College.

To grow old gracefully, one must live

temperately, calmly, methodically, be in-  
terested in all that is going on in the

world, be cheerful, and have a family

and above all, keep the blood pure and

vigorous by use of Ayer's Sarsaparilla.

Be sure you get Ayer's.

Every man who would be successful in

business must expect to find plenty of up-  
hill work. Advertising will not make suc-  
cess in a day, but it does judiciously it

will pay handsomely in the long run, and

it will pay you to do business it will pay

you to advertise.

You need never tell what a slight cold may

lead to; it is, that, however, to give your-  
self the benefit of the doubt, and even toas soon as possible with Ayer's Cherry  
Pectoral. A day's delay, sometimes an hour's

delay, may result in serious consequences.

One of the five most marked has been

suffered with it. Many persons re-  
tain complete possession of their facultiesuntil advanced in years; others, however,  
lose their faculties early in life. L. W. Young

has, last year, free of charge and great

satisfaction.

A communication from the Minister of

Education has been received, and the ques-  
tion of the weekly examinations, which areheld in all High Schools and Colleges in-  
volving the Province, will be brought

before the Education Committee in the near

future. It is an important question in de-  
termining the standard of candidates in the

Department examinations.

The most palatable preparation of Cod

Liver Oil in the world is Miller's Emulsion

and is now being taken by thousands of

suffering people. Miller's Emulsion "the

kind that cures" coughs, colds, bronchitis

and almost every kind of lung trouble. It

is not a medicine. No oily taste like others.

In bottles, 50c. and \$1.00, at druggists.

Chicago—Several of our men who offer

you an imitation article, one matter

what it is, and says it is "just as good as

genuine." They say it is taken by thousands

of people. It is this way you get the

value of the article. The people who are

made by Frank Davis. Large bottles,

smaller price.

Ald. Wills wanted to see the system  
modified, but he thought we should have  
some light on the subject and he would  
support the amendment.Ald. Starling said we should not burden  
the business men of the city, but if they  
would more to raise the assessment on the  
income of men who had their money invest-  
ed in mortgages he would support the  
amendment.Ald. Fenton said the present assessor  
had raised the assessment, while the popu-  
lation had increased only two hun-  
dred. He said this was a retrograde  
movement. Assessment was not valuation.This movement was the old retention of  
salary question in another form. F. T. O.  
said, represented the cause of the  
parties who were now virtually appointed  
in the minds of the voters in this matter.Ald. Diamond insisted that the remark  
made by Ald. Landsberger concerning A.  
Lester be withdrawn.Ald. Landsberger accepted Ald. Lester's  
denial of the rumor.Ald. Fenty said there was not a working  
man home in the city that was not assessed  
and to fail value. The Council had given  
\$100,000 for the year.Ald. La Roche said it was the people who  
had voted that sum, not the Council.Ald. Fenty—"I don't want to be inter-  
rupted by any jack ass."Ald. Fenton rose to a point of order and  
the chairman requested Ald. Fenty to re-  
tract his statement. He retracted and con-  
tending that the Council had voted  
\$200,000 for the year, he would support the  
amendment.Ald. Shavlin was not in favor of going  
back to the system of the past. He would  
support the amendment. He said if they  
could get an assessor who would place  
everybody on a level, he would give him  
\$50,000 a year. He wanted to know  
if the Council would go back to old ways  
if they got these changes.Ald. Clarke said it would be a good idea  
to advertise the assessment. He said  
that the assessor was not to be as  
deceitful. He said that the assessor  
was a man who owned his stock on credit,  
when both men carried the same amount of  
stock.Ald. Doyle said people had complained  
when they were three assessors. He  
would vote for the amendment.Ald. Harle said he had seconded the  
resolution and he thought it was in keep-  
ing with their duty. If there was any-  
thing wrong with the present system they  
should fix it. He thought that three men  
could do the work better and for less  
money. He would support the report.Ald. Robinson said he had called the at-  
tention of the assessor to certain merchants  
who were not assessed high enough, but  
(Mr. Mickey) had said it would be poor  
policy to raise the assessments of these men.Ald. Collins said if Ald. Robinson  
knew the valuation was wrong he should  
not come to the Council and make a  
speech, but should go to the Clerk of the  
Court of Revision and get a  
revaluation. The Mayor stated that the assessor had  
raised the assessment last year on personal  
property and license, but the Court of Re-  
vision had taken off a large amount of it.  
This was not the assessor's fault.The assessment carried and the commit-  
tee rose and reported. Reports received  
and adopted.Ald. Starling asked for the year and

## A BAD CASE

A Member and Shipyard Charged with  
Cruelty to Children.Constable Cook brought to the city this  
morning Jas. A. and his wife, of Crook-  
ston, charged with cruelty to the two chil-  
ren of Mrs. Blair. The woman is the  
widow of the late Alex. Mitts, who com-  
mitted suicide last summer and she had  
since married Blair. The children were in  
court and are exceptionally bright and  
happy. They are aged one and two years  
respectively. In the absence of the Magis-  
trate the case was enlarged until Friday.

A panic is a sudden desertion of a going over to the enemy of our nation.

Nothing so suddenly obstructs the circulation as sudden transitions from heat to cold. Heat rarifies the blood, quickens the circulation and increases the perspiration, but if these are suddenly checked the consequences must be bad. The most common cause of such an obstruction is a sudden change from heat to cold, as when a person goes from a warm room to a cold one, or when a person is suddenly exposed to cold after having been heated by exercise or by the sun.

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard diet, while the experimental group received a diet supplemented with 10% of the total energy from fat. The subjects were then divided into two subgroups: the control subgroup and the experimental subgroup. OUR WINDOWS

Our two windows are attracting much attention to-day, and we may be pardoned for saying we think they look rather pretty. One is trimmed with new spring prints, running in price from 6c to 25c a yard. The other is trimmed with ladies' and children's white underwear, blouses, laces and embroideries. Do you not think they look as if we keep good goods at moderate prices?

## THE BOARDING GAME

Campbellford visit to be made by Two Bells of Belleville.

The curling game attracted a large crowd at the rink last evening, considering the inclement weather. One rink from Campbellford arrived on the afternoon train from the north, but the other rink was unable to catch the train and came down on a freight. The freight made the usual time and consequently the men from the north did not reach here until about 10 o'clock. Rink No. 1 began play shortly after 8 o'clock and skip "Bill" used played an exceedingly steady game.

They continued to play for twenty minutes, when the Belleville rink had a majority of 13 shots. In the meantime the Campbellford rink arrived and play was begun on rink No. 2. Skip Pope's men made a four end to start with and then Campbellford got in a three. This rink played twelve ends, and it being then about midnight it was decided to call the game. Campbellford had a very nice game of five shots on rink No. 2, giving five goals to Belleville by 8 shots. Towards the finish of the game the five teams very sticky and it was difficult for some of the weaker players to get over the "hog". The rinks and the scores were as follows:

RINK NO. 1.

W. Brown, 1; R. South, 2; H. Smith, 3; D. Douglas, 4; J. W. Fife, skip—30. F. Smith, skip—7.

RINK NO. 2.

P. Harrison, 1; J. Harris, 2; J. Harris, 3; J. Harris, 4; W. W. Fife, skip—30. J. Harris, skip—30.

At the conclusion of the game the visitors were taken to Mr. John Fleming's restaurant, where a neat spread, consisting of oysters, cold meats, fruit, etc., had been prepared. About three hours were most enjoyably spent in songs, speeches and conversation, and the party broke up with friendly adieu. The member for East Hastings is looking very well. He leaves next week for Toronto to attend to his duties in the Legislative Assembly—Mr. and Mrs. Harvey Silder, of Belleville, have been the guests of Mr. and Mrs. James Gannon during the past week—Des. Mr. Hulse has been a general traveller both in and about the city, having been a prominent member of the City Hockey team and cricket club. He will return shortly to carry one of Belleville's fastest dashes.

Remarkable Prophecies.

Thomas the Rhymer made the following prophecies over 300 years ago: That three hundred years hence when—1. A Scottish sovereign, and that a woman, should sit upon the throne of England for over fifty years. 2. That the same time a Scotchman would be the Archbishop of Canterbury, another Scotchman Prime Minister of England, a third married to the Queen. 3. That carriages would run without horses. 4. That men would learn to fly by the aid of balloons. 5. That ships would go through the water without sails. 6. That men would travel under the ground. 7. That men would send a message 100 miles in five minutes. All are now fulfilled as follows: 1. The Queen's descent is from James I. (James VI. of Scotland). 2. The late Archbishop Tait was a Scotchman; so is Mr. Gladstone, who is the Prime Minister; so is the Marquis of Salisbury, who is the Prime Minister. 3. That carriages would run without horses. 4. That men would learn to fly by the aid of balloons. 5. That ships would go through the water without sails. 6. That men would travel under the ground. 7. That men would send a message 100 miles in five minutes. All are now fulfilled as follows: 1. The Queen's descent is from James I. (James VI. of Scotland). 2. The late Archbishop Tait was a Scotchman; so is Mr. Gladstone, who is the Prime Minister; so is the Marquis of Salisbury, who is the Prime Minister.

Off to London.

The Toronto Star of February 9th says: "Mr. George E. Reid, Cashier of the Sun Life Insurance Company, is leaving to-day for London, England, to take charge of the company's financial business. The agent and staff presented him with a handsome travelling case and a letter of introduction this morning. Mr. Reid has been connected with the company here for seven years."

Remarkable Prophecies.

Thomas the Rhymer made the following prophecies over 300 years ago: That three hundred years hence when—1. A Scottish sovereign, and that a woman, should sit upon the throne of England for over fifty years. 2. That the same time a Scotchman would be the Archbishop of Canterbury, another Scotchman Prime Minister of England, a third married to the Queen. 3. That carriages would run without horses. 4. That men would learn to fly by the aid of balloons. 5. That ships would go through the water without sails. 6. That men would travel under the ground. 7. That men would send a message 100 miles in five minutes. All are now fulfilled as follows: 1. The Queen's descent is from James I. (James VI. of Scotland). 2. The late Archbishop Tait was

## THE REDUCTION SCHEME

THE QUESTION THOROUGHLY GONE INTO LAST NIGHT.

The Aldermen did not vote themselves out of office. Several other Aldermen were present. The whole matter referred back to the next meeting.

At the regular meeting of the City Council last evening the following members were present: His Worship Mayor, Walsingham, Ald. Collins, Diamond, Foster, Graham, Green, Haight, Hart, Landonberger, Loucombe, Moun, Petty, Robinson, Shavlin, Wills, Laster, Marshall, Starling, Panton, Laidlaw, Clarke. The minutes of the previous meeting were read and confirmed.

The communication was read from Robt. McInnes asking for the city's co-operation in securing a lease of the old market building.

A number of accounts were read and referred to their respective committees. The reports of the several committees, already published in these columns, were read.

The Council went into committee of the whole on reports, Ald. Starling in the chair.

In regard to the clause of the Public Works Committee's report recommending that the city should be advertised in the local papers and the Peterborough papers, Ald. Panton said he did not see the need of advertising in the Peterborough papers. He said we were at the mercy of a few big concerns and he thought the City Clerk's correspondence would do more towards securing a fair contract.

Collins said he did not think business men looked in the small papers of one house town for ads. of that kind. But said out circular to the firms.

Ald. Landonberger and Robinson thought for all the extra expense it would amount to and would be expected to advertise in outside papers.

Ald. Wills said he did not think it necessary to advertise in the Peterborough papers, but would move in amendment that there be no advertising in the local papers, and that marked copies be sent to outside firms.—Carried.

The recommendation of the Market and City Property Committee, that a register be placed in the Police Magistrate's office, and passed with the evidence of this case. That the Magistrate should no longer have the book of orders sitting from the police cells.

The Board of Health called the attention of the Council to the necessity of extending Front St. sewer.

Ald. Landonberger asked that it be referred to the Public Works Committee. Ald. Diamond asked that it be laid over till the estimates were brought down.

Ald. Laster said he thought it was the proper course to refer it to the Public Works Committee.

Ald. Panton said he should use the business portion of the city differently from the residential part. This answer was a somewhat abrupt and short, but was referred to the Public Works Committee.

The matter was referred. The communication of Robt. McInnes was referred to the Market and City Property Committee.

THE FOUR WARD SCHEME. The recommendation of the special committee on ward reduction has already been published in these columns.

Ald. Panton said they were discussing this scheme because it had been decided by a plebiscite vote by a large majority of the voters. The matter was quite simple. The scheme could not come into force before 1895. He said the equalization in population would be about fair.

The representation as it at present exists is not representative by population. The city had been subdivided by streets or groups of people, but we wanted the city divided on a fair basis and he thought the scheme as reported was a fair one.

He said it would be much preferable in case a fire alarm system was adopted. Public opinion was in favour of the scheme and the committee were unanimous on this point.

Ald. Wills gave the following figures to show how the division reported would affect the equalization:

AS IT NOW IS.

| Ward      | Population | Area |
|-----------|------------|------|
| Front     | 250,000    | 1080 |
| St. James | 100,000    | 1100 |
| Baldwin   | 650,000    | 1514 |
| Bleeker   | 379,000    | 1400 |
| St. James | 620,000    | 2500 |

AS PROPOSED BY REPORT.

| Ward       | Population | Area |
|------------|------------|------|
| Ward No. 1 | 1,200,000  | 2500 |
| Ward No. 2 | 1,400,000  | 2600 |
| Ward No. 3 | 625,000    | 2600 |
| Ward No. 4 | 700,000    | 2700 |

Other schemes had been talked of but none of them could compare with this plan in equalization. The vote taken at the municipal election strongly in favor of the reduction and he thought that a dozen men could not be as well as twenty men in referring to the communications of Mr. Meagher in a local paper last evening. He thought the arguments were very poor.

Ald. Clarke said the argument that the plan would give a poor man a poor one for a fire alarm was a poor one. In Ward No. 4, when an alarm of fire was rung a person might look for a poor man in the north pole and the Bay of Quinte for the fire and so in the other wards. He said he had no doubt of the truthfulness of Ald. Wills' figures, but it was a question whether the division was fair to the people of all the wards. The fire ward scheme would, in his opinion, be nearer equal in regard to population, than the two wards on the east and one on the west and three on the east side. Then we would have boundaries by nature, and by imagination. They were referred to the committee of the whole.

Ald. Landonberger moved, seconded by Ald. Loucombe, that Messrs. H. Orby, M. P. and W. W. Norrington, M. P., be asked to wait upon the Railway Company at the next session of Parliament to get a removal of the line from the city to the crossing on Frank St. and that the City Council be instructed to prepare a bill for that purpose to be given to the Mayor.

Ald. Wills moved in amendment to the amendment, seconded by Ald. Panton, that the report be referred back for the purpose of fixing the boundaries of the four wards from east to west or any other division the committee may deem advisable.

Ald. Wills withdrew his motion. Ald. Diamond's amendment was lost. Ald. Panton moved that the whole question of the reduction of wards be referred back to the special committee for further consideration.—Carried.

The committee rose and reported. Received and adopted.

The rules were suspended for the introduction of the following motion: Moved by Ald. Diamond, seconded by Ald. Collins, That in view of the falling due of debenture amounting to \$20,000 on the 28th inst. this Council authorize His Worship the Mayor, the Treasurer and the chairman of the Executive Committee to make arrangements for the redemption of the debentures of the Bank of Montreal as to advancing the amount until the 1st day of December next, when the third series of debentures fall due; and that such proposed arrangements be reported to the Council at its next meeting.

Ald. Robinson gave notice that he would at the next meeting of the Council introduce a by-law for the purpose of appointing an assessor or assessors and fixing the salary for the same.

Ald. Landonberger moved, seconded by Ald. Loucombe, that Messrs. H. Orby, M. P. and W. W. Norrington, M. P., be asked to wait upon the Railway Company at the next session of Parliament to get a removal of the line from the city to the crossing on Frank St. and that the City Council be instructed to prepare a bill for that purpose to be given to the Mayor.

Ald. Wills moved in amendment to the amendment, seconded by Ald. Panton, that the report be referred back for the purpose of fixing the boundaries of the four wards from east to west or any other division the committee may deem advisable.

some afraid they would not get back if they reduced the wards. If the people did not want him he was willing to get out. They could reduce the number to three wards if they wanted to and he would vote for it. He wanted a reduction of wards because the people wanted it.

All (Graham said) had been said that the reduction would get better men. During the time of twenty-one aldermen, not a single ward could be brought under the control. But when there were twelve men one alderman had got \$2,000 and another had got \$1,000. They had no other reason for being in the city and doing other boggling.

He would vote against the report. The Mayor said he had a vote on this matter and he would vote for Ald. Diamond's amendment. The balance five wards were preferable to four. He said if valuation were taken into consideration he might have a man in our ward who was worth \$4,000,000, and he would have as much to say as the rest of the city.

Ald. Robinson said the division now before the Council was the only scheme a sensible man could suggest. If the city was divided from east to west they would have some small odds, especially in the ward next to the bay. He would support the report.

Ald. Landonberger said he would vote for Ald. Diamond's amendment. He did not care whether he was returned another year or not.

Ald. Green said if the vote of the people meant anything it was the duty of the Council to reduce the number of wards. He thought there was no particular hurry in the matter, and if the question were deferred the aldermen would be better acquainted from the people their wishes in the matter. He thought Murray was at present the only alderman to other wards. Some of the aldermen from Murray ward may not be so well educated as some others but the people appreciated honest work by many men. He would vote for Ald. Diamond's amendment.

Ald. Laster said the matter should be referred back to the committee for report on some other day and not on the day of themselves to five wards. Then they would have two schemes before them and could decide on either.

Ald. Diamond said the principle was whether they would have four wards or five wards.

Ald. Wills moved, in amendment to Ald. Diamond's amendment, that the city be divided into four wards without defined boundaries.

Ald. Wills' amendment was carried. The committee rose and reported. Reports received, but on motion that it be adopted, Ald. Clarke moved in amendment to Ald. Wills' amendment.

Ald. Panton did not think it wise to make the committee with the suggestion that the city should be divided into five wards. Why should the river be brought into the question? It was a natural boundary; it was only a stream of water. The river had always been a highway for the people, and it was a fact of letting the committee decide the matter and report.

Ald. Laster said he thought that representation by population was the better plan; but the assessment should also be taken into consideration.

Ald. Wills moved in amendment to the amendment, seconded by Ald. Panton, that the report of the committee of the whole be not now adopted, but that the report be referred back for the purpose of fixing the boundaries of the four wards.

Ald. Starling said he believed the best plan would be to reduce the number of aldermen to four in each ward.

Ald. Wills' amendment carried on the following division: Year—Ald. Collins, Pater, Green, Laster, Landonberger, Marshall, Moun, Robinson, Starling, and Wills—11.

Next—Ald. Clarke, Diamond, Graham, Loucombe, Haight, Hart, Landonberger, Petty, and Shavlin—9.

The committee of the whole resumed. Ald. Wills moved that the question of the reduction of wards be referred back for further report.

Ald. Diamond moved in amendment that the city be divided in five wards, two on the west side of Front St. and three on the east side, and that the matter be referred back to the committee to report on the boundaries.

On motion the committee rose and reported progress and asked leave to sit.

Ald. Diamond moved, it being now eleven o'clock, that the time of the Council be extended half an hour.—Carried.

The committee of the whole resumed. Ald. Clarke moved in amendment to the amendment, that the report be referred back for the purpose of fixing the boundaries of four wards from east to west or any other division the committee may deem advisable.

BY A BARE MAJORITY OF TWO

IN IMMEDIATE TO THE POLICE  
FOR THE REASON THAT THE

LONDON, Feb. 14. In the House of Commons Mr. Edward Gournay asked if the Government of India intended to levy an import duty on silver in bars or coin.

Mr. G. E. Russell, Parliamentary Secretary of the India Office, replied that all the proposals relating to taxation in India would be announced in the annual budget.

Re-lying to questions on the subject of the proposed Indian silver coinage, Mr. William Vernon Harcourt, Chancellor of the Exchequer, declared that it was not intended to reopen the mints of India to the free coinage of silver nor to adopt a minimum rate for the sale of India Council bills. The Government did not intend to tax imports of silver or to change the present policy.

The Government accepted the amendment offered by Mr. Cobb to the Employers' Liability bill suspending for three years the operation of the bill in case where there are existing workmen's insurance funds.

Mr. Cobb's amendment to the Employers' Liability bill was carried by a vote of 218 to 213. The announcement of the figures

was received with wild Unionist cheers. The smallness of majority was due largely to the absence of Irish members. The incident, although it will not affect the Government, is certain to induce the Lords to adhere to the Earl of Dudley's contracting-out amendment by rejecting Mr. Cobb's amendment. In the lobby of the House of Commons the Employers' Liability bill is regarded as lost.

The Indian Currency Association has

presented to the Government a memorial protesting against Lord Kimberley's dilatory policy. The memorial says that the closing of India's mints to silver was harmless, although it caused a temporary disadvantage, owing to the abnormally large imports of silver.

The result has been the present panic, they add. "The minimum must be fixed once and the importation of silver for private account must be prohibited, while the sale of bills should be entrusted to special appointees."

**PASSED THE LORDS.**

The Parish Bill Given Its Third Reading in Amended Form.

LONDON, Feb. 14.—The Parish Council bill passed its third reading in the House of Lords Tuesday. The bill was greatly mutilated by the amendments made to it in the Upper House.

JOHN MORLEY MAY RESIGN

His Position as Irish Secretary (Both Irish Home and Distasteful).

NEW YORK, Feb. 14.—Edmund Yea, 41, his weekly cable letter, says: "I have abstained from noticing the rumor lately which is whispered from John Morley's desire to escape from his present position but that it has now been published I need not undertake to speak of it. Whether I have at any time contemplated resignation I do not pretend to know, but I have reasons for saying that his position in the Irish office has been proving more and more difficult."

unit and disastrous. It could not well be otherwise, even with a less sensitive man than he. He has found himself compelled to adopt the very action which formerly he denounced in such unmeasured terms. In the recent murder case in Dublin he has been obliged to annotation recourse to the Explosives Act to obtain the very power which under the Crimes Act he might have used openly but for his wild denunciation of that enactment. He recognizes that

Langdon is more opposed to Home rule than ever, and that the agitation is in favor of Ireland is hollow and unreal, and the rival of Fenianism is a serious discouragement to him."

FIRE UNDERWRITERS.

**Rates to Be Advanced If Better Protection Is Not Obtained.**

Toronto, Feb. 14.—There was a large

gathering of insurance men in the council room of the Board of Trade yesterday. All the fire companies of the United States, Canadian, British and United States, to the number of about 35, doing business in Canada, were represented. Mr. T. R. Wood of the Aetna was in the chair. The chief subject under discussion was the heavy losses accruing to the different companies the past year. Those losses in 1903 were about 74 per cent. of the gross premiums

and as it cost 30 per cent, to get the business the net result is not very satisfactory. It was unanimously agreed to acquaint the different municipalities that they will have to take action for the better protection of property, and failing this insurance rate will have to be raised.

Another meeting will be held to-day, and in the evening the Toronto board will give a dinner in the rotunda of the Board of Trade to their brethren in convention.

**WILL HE BE TRIED TO-MORROW**  
WINNIPEG, Feb. 14.—Charley Chamberlain of Toronto, who is charged with perjury and perjury in connection with the recent Dominion election here, arrived in Winnipeg this morning in charge of the City Police. His trial has been fixed for Chicago Thursday.

**WILL BE LYNCHED IF CAUGHT.**

**Public Excitement in Essex Against the Four Leamington Florida.**  
WINDSOR, Ont., Feb. 14.—The whole of Essex County is wrought up over the startling actions of the four Leamington men, charged with assaulting 10 little girls. John and Joseph Munger and John Jones are under arrest and Devore, a Leamington storekeeper, has skipped. The men are all over 60 and their victims are all under 14. The people threaten lynching in case 14

They should be caught. The men under arrest are held for trial without bail to appear in the March session.

**FOR THE HEROES OF BATOCHE.**

**Proposed Monument to the Victims of the Northwest Rebellion.**

**TORONTO, Feb. 14.**—A deputation consisting of Messieurs McLean Howard, James Macdon, Moss and John Fleet, clerks, waited on the Honorable the

ernment yesterday for the purpose of enlisting their sympathies in a project to erect a monument to the memory of the volunteers who fell in 1880. The Attorney-General gave them a very laudable answer.

## "SOLD" PARADE.

The beautiful opera successfully presented

of last evening

The California Opera Company opened

a three nights' engagement at the Queen's

opera house last evening in Richard's

beautiful new opera "Said Parade," a

large house. The opera is particularly

noted for its music which is a

most unusual and original composition.

Miss Josephine Stanton, as Juliet, the

daughter, was charming. Miss Stanton

has a sweet, pure soprano of more than

ordinary compass, and her character of

Juliet was admirably sustained by her

planning. Miss Adelaide Barker, as

Juliet's mother, gave a good impression

of a baroness. Miss Willette de Charrier,

GENTLEMEN,—About five years ago I began to be troubled with Dyspepsia and for three years suffered unavailingly.

Walter Woods & Co Hamilton, and I was treated by some of the best physicians in this country, but all to no purpose. I continued to grow worse, one day I was induced to try a bottle of Dr. J. C. Lyman's Vegetable Discovery, and to my great joy, I soon began to improve. I continued using the medicine, and when the third bottle was finished, found I was entirely cured; and as a year has elapsed since then, I feel confident that the cure was complete and permanent. To all afflicted with this distressing complaint I heartily recommend Dr. J. C. Lyman's Vegetable Discovery, any bellying that the persistent use of it will cure Dyspepsia.

The Woodstock *Paradise Review* says: "On Sunday night, eight watchmen at the T.R. station, saved the life of S. Burrows of Belleville the other day, and was rewarded with a \$5 bill. Mr. Burrows was on a board moving train when the locomotive and the train were about to start, and he would have certainly been dragged under the wheels and killed, but for the timely assistance of the watchmen."

### One Hundred Dozen.

The above quantity seems quite a lot of one line of goods to receive at once, but here is a list of the contents of the way the Oak Hills sales cheap. Every one knows of the great goods we sold last year for 5c. per pair. We shall now sell one hundred dozen. We will sell two hundred dozen during the summer.

## AS OTHERS SEE US.

MR. M. J. HENDERSON, U.S. CONSOLE, INTERVIEWED AT ROQUEFORT.

Interesting statements concerning our city and district in a confidential manner.

Editorial Post Office, Feb. 19, 1894.

Michael J. Henderson, United States Consul at Belleville, Canada, has been staying in a thirty day leave of absence, visiting friends at Penn Yan, Auburn, Union Springs and Lyons. Yesterday he returned to Rochester, where, until Monday, he will stay with his brother, Rev. Thomas Henderson. Consul Henderson was seen today by a *Post Reporter*, and in the conversation he gave some interesting facts regarding the city across the lake, where he represents the interests of "The Erie Canal."

Belleville is a city of 10,000 inhabitants and is situated in the Midland district of the Province of Ontario on the Bay of Quinte. It is almost at the beginning of the Thousand Islands and is frequently visited by tourists from Rochester in the summer season. "A new hotel has been built," says Consul Henderson, "which will be opened in the spring. This will be the finest hotel between Toronto and Montreal and ought to attract many summer visitors from this side of the lake. The city is only one degree north of the latitude of Rochester but in the winter much colder weather prevails. 'Blizzards' began about December 1st and it will continue all winter. The thermometer was several days when the thermometer in January fell to 15 degrees below zero, but no one here seems to mind the cold. There are a few skating rinks on the Bay of Quinte, while skating is the common amusement from the middle of November to the end of February. The people expect the cold weather, prepare for it and don't seem to mind the cold. As you do in Rochester, I don't believe there are three men in the city of Belleville besides myself who are wearing any winter caps in the winter and keep well bonneted up."

"The Midland district," continued the consul, "is a great agricultural country. At Chicago the district took at least three-fourths of the awards given on wheat. It is a great butter country, too. The farmers are organized and working to raise good products. They have secured a large trade with England and they seek in every way to maintain the quality of their products. I was surprised at the exhibition made at some of their agricultural shows."

"What are the natural resources of the district aside from agriculture?"

"There are all sorts of ores to be found. Anthracite, and sub-bituminous coal, in abundance. There is magnetic iron ore. Slate and marble also exist. But none of these have been developed. The gold ore is refractory and hard to reduce. Real estate stands that a company has been organized that will by a new process undertake gold mining on a large scale. It is claimed that the mines can be profitably worked for several and that the gold will be a by-product and all clear gain. The lumber interests are large, too, and they are well developed. The Robinson company, which is the largest in Canada, was formed by parties who came from Auburn, in this state. They manufacture shingles and blinds, sanded lumber and all sorts of articles of this nature. The company is composed of Americans, but they have become Canadian citizens now. At Trenton, near Belleville, is the Gilmore Company, composed of gentlemen who came from Scotland. These companies have been lumber agents and clear them."

"What effect will the free lumber trade have on the lumber industry?"

"Not so much, I am inclined to believe, as is claimed. There is ready sale for the lumber now and the Wilson bill will not affect this business very much."

"What manufactures are there in your city?"

"There are two carriage factories, a furniture factory and some very large cabinet works. Belleville has a number of small industries and is, in fact, quite a manufacturing city."

"The educational and other public institutions are famous," added Consul Henderson. "The Protestant Episcopal church, the Methodist church at Belleville, is the largest in the world, I am told. There are two large house colleges, the Ontario and the Belleville, containing in the aggregate at least 400 students. There are four Episcopal churches, one Methodist church, the strongest Protestant district in Canada. There is no trouble in the schools on account of religion. One general school is in the city. Then the money is divided and given to the parochial or separate schools in proportion to the Catholic population in the district. The people seem to pay attention to their education. You know there are no street cars allowed to run on Sunday and the barber shops are closed."

"What is the political situation in Ontario?"

"There are two parties there, as here, the Liberals and Conservatives, and they differ on the tariff as radically as the Conservatives and Democrats in the United States. The biggest political demonstration I ever saw in a small city was in Belleville in honor of the local member of parliament, Hon. Henry Corby. It was in the shape of a supper, to which 7000 men sat down. The general provincial election will probably be held next summer, says Oliver Mowat, the present Premier, heads a Liberal ministry. There will be a lively contest at the next general election. The Dominion election will not be held for a year or two yet. The Ontario people are just as much interested in politics as are the citizens of the United States and their elections are just as spirited and interesting."

"How do you like the province as a place of residence?"

"Very much indeed. The people are hospitable and friendly. A majority of the population is of English descent and the people exhibit the English hospitality with reality with the English conservatism and solidity of character. In the summer the Bay of Quinte, too, is charming. I think that it compares favorably with the Hudson river."

Consul Henderson has appointed an old Rochester man, Charles A. Miller, to be his consular agent at Deseronto, a town near Belleville. Mr. Miller is an agent of the Robinson Company and is an American citizen, although he has lived many years in Belleville.

The store recently occupied by the late Mr. Harrison, bookseller, is being renovated and refitted to the requirements of the fashion for the reception of the new fairing stock of Mr. Geo. P. Minaker. Mr. Minaker says this store, if completed, will be the best appointed for the business in this section of the country. The store is in the street and will be at and below cost for the next thirty days to clear.

BELLEFLEUR, FRIDAY, FEB. 24.

**CITY AND DISTRICT.**

The mail train was half an hour late today.

Today's wind is the coldest and most piercing of the winter.

Beaver Tobacco is the standard gentleman's choice of Dunnet's.

Although it's early in the season, the fruit crop has already been entirely destroyed.

If absolute purity counts for anything, Beaver Tobacco is the only good quality.

Go to Grant's cheap cash sale of boots and shoes. New goods at cost for sixty days only.

Remember the hockey match this evening from 7 to 8 o'clock, between Napier and the Queens.

Are you reading the Happy Thought Recipes in the C. F. Smith & Co. ad? Cut these out and paste in your scrap book.

On Saturday, Jacob Pinkie will sell his cream only at 14 cents a pound. From 9 p.m. till 8, he will make pinkie pop cakes.

The name of Fred, Curry, who represented a tramp, was called out in the list of those attended the 19th Belleville carnival.

From 10 o'clock to 10.30, unadorned white, dress attire worn by 15, our prize 60, size from 12 to 17 inches. — A. E. Fain & Co.

Mr. B. O. McLaughlin has been instructed by Mr. A. H. Briggs to sell the whole of his household effects at his residence, Queen Street, on Tuesday, 27th inst.

There is no claim made by Ayer's Sarsaparilla which cannot be supported by scores of testimonials. This fact plainly proves that the blood is the source of all diseases and that Ayer's Sarsaparilla is the best of blood purifiers.

Don't waste time, money, and health, trying every new medicine you may see advertised in the papers. If the cause of your trouble is the liver, or the stomach, or the kidneys, take Ayer's Sarsaparilla at once, and be sure of a cure. Take no other.

"The Temple of Fame" rehearsals are engaging much attention, and the production will be first class. Rehearsal Thursday evening, March 3rd, in the Queen's Opera House. Rehearsal to-night and to-morrow night in the Tabernacle theatre. All taking part are present.

Fragrant odors are enjoyed by every body, and now that the price of perfume is within reach of all, the pleasure derived from its use is enjoyed by many. L. W. Yocum & Co. have constantly on hand the latest and best perfumes in the market.

Consumptive, cheer up! You are not going to die, if you will but take Miller's Emulsion of Cod Liver Oil, "the kind that cures" coughs, colds, bronchitis, and the first stage of consumption. Every bottle warranted. At 50c, 60c, and 75c, at drug stores.

Morrison's will send the Pale Kilo Invaluable in the future, and it should also be kept in the house. It is a powerful purifier in the blood, and a little Pale Kilo in sweetened milk and water, bathing the breasts in it, cleanses the system. If the milk passages are clogged, from cold, or other causes, bathing in the Pale Kilo will give immediate relief. Ask for the New Bottle.

**SPORTING NEWS.**

The Y.M.C.A. decided to give the Athletics of Kingston a match next week. (For it.) The match will be the match of the season, as the Athletics are second to none in Kingston.

Remember "The Temple of Fame," one of the most attractive entertainments ever given in the city, will be produced at the Queen's opera house on Thursday evening, March 8th. Over 50 persons will be entertained. This entertainment wherever given has attracted large crowds. Hundreds were unable to gain admission on the second night in Piquette. Remember the date.

**PAID KILLER.**—The testimony borne to the efficacy of this valuable medicine is sufficient to warrant its introduction into every house. Our own opinion is that no family should be without a bottle of it for various reasons. It is a powerful cathartic, purges, cures, and is the most reliable remedy for all ailments. It will last for a long time, and its low price will be within the reach of all.—News, St. Johns, C.

**The Philharmonic Society.**—Another treat is in the making for the music lovers of Bellefleur. Two concerts, one secular and one sacred—are being arranged for by the Philharmonic Society, and the work is moving on well indeed. The programme for the first concert, which is to be given at the Queen's opera house, "The Day," a full selection of operatic choruses and songs, is of the highest quality. On the second evening will be given Gail's "Holy Trinity" in which the most beautiful sacred compositions. In this work is found a variety of choruses, and the under and palatable, and the most beautiful. The orchestra party, which is now in the hands of the Philharmonic Society, are in every way equal to the role part. It is the intention of the Philharmonic Society to give in Bellefleur the most complete series of operatic choruses, and to give first-class musical performances. The conductor, who shall be every member of the chorus and the place during the March and April rehearsals.
